

Jupiter

**IN CAPRICORN**

**2019 – 2020**

**REPORT**

**Scientist Scott Bolton,  
from the Southwest  
Research Institute  
in San Antonio,  
described Jupiter as  
“like nothing we’ve ever  
seen before!”**

**I would have  
to agree!**

Jupiter is the lucky planet; the planet that puts good fortune in our path, the shows us that confident goes hand in hand with good things happening, the mighty planet that allows us to see the big picture and to believe that anything is possible!

It is like nothing else in the planetary pantheon, that’s for sure. It’s all about positivity and good news. As the arguably most respected astrologer in the world, Robert Hand, put it... there is no such thing as a bad Jupiter transit – in other words, where Jupiter goes, only good things follow, even if sometimes there’s a tinge of lessons being learned, chaos, confusion and/or detoxing taking place, for example (when Jupiter triggers Saturn, Uranus, Neptune and/or Pluto).

# What is Jupiter about, overall?

From my Hay House book  
**Astrology Made Easy**

**Living positively:** Faith, excitement, adventure, joy

**Living negatively:** Overindulgence, pompousness, arrogance, risk

This planet is known as the 'greater benefic', which basically means that everything Jupiter touches is blessed. When you look at Jupiter in your chart, you're essentially looking at the good luck charm you were born with. Jupiter is the planet that endows you with the confidence to believe in yourself. It's the amplification planet, sometimes known as the 'lotsa' planet.

Jupiter is also the planet of joy, freedom and adventure and it can see the big picture. It's also the planet that gives you faith in your Self and the cosmos. Your Jupiter is where you take chances and seize opportunities. This massive planet helps you to grow. Wherever you find Jupiter in someone's chart is where they like to have fun.

But Jupiter has two sides. On the one hand, a Juptierian vibe is a jolly, cheery Father Christmas vibe. On the other hand, this is the planet that's all about faith, and seeking life's meaning. Perhaps the meaning of life is to be jolly!

Morals, confidence and luck also come under Jupiter's remit. It's no surprise that where we are confident is where we tend to be lucky. Jupiter can also exaggerate wildly, overdo it excessively and tip from confidence into arrogance. Where you find Jupiter in someone's chart is where he or she can get all the glory for being so awesome, or come across as an arrogant so and so!

**“There’s  
no such  
thing as a  
bad Jupiter  
transit!”**

**Robert Hand**

It's good news after all the dramas of the past few years.

“Achieve”

Capricorn people are ambitious, practical, and are likely to have an excellent sense of social responsibility. They also tend to be conscious of social mores, perhaps to the point of over-concern, and can suffer from feeling insecure. They are driven, yet cautious, which allows them to advance slowly and steadily to the top.
